

Year 3

OLOTR: Year 3

Class Newsletter February 2022

A HUGE WELL DONE AND THANK YOU!

We wanted to begin with a huge well done to the Year 3 for their superb progress in all areas of school life. You have demonstrated your kindness, care and respect on a daily basis. The work you have produced, in all areas of the curriculum, shows how enthusiastic you are to learn and how much your confidence has grown since September.

To the parents of Year 3, thank you for your continued support this academic year. We appreciate the work that you do to support your child with their homework, reading books and overall shaping them into wonderful humans!

Attendance Sealions – 90.1

Attendance Narwhals – 94.5

SCIENCE

This half term we have studied plants in Science. We have worked in teams to plan our own investigations. We planted and looked after our very own plants in order to investigate in what conditions they can survive. We placed them all around the classroom including under a book shelf and hidden behind furniture (which made watering the plants an interesting task!) Another interesting experiment was using celery and food dye to see how water is transported up a stem. We look forward to planning more experiments and investigations together as super Scientists.

READING

We thoroughly enjoy our Year 3 routine of Reading Groups. This is when we get to listen to you read aloud and you are able to show off your fantastic understanding by responding to questions about the text. For this to continue to be a success, we ask that you dedicate time to read at home and bring your book into school each day.

GEOGRAPHY

We have expanded our Geography skills by building an understanding of Volcanoes and Earthquakes. You have shown that you are able to use technical vocabulary to describe how volcanoes are formed, the causes of their eruptions and the impact this has on the Earth. We have recently begun to discuss and research earthquakes. You will be excited to know that we are going to continue this topic next half term! We will become experts.

SPANISH

Did you know we are on our way to becoming fluent in Spanish?

We are having so much fun in our Spanish lessons with the help of Miss Tweedy. We now feel confident with greetings, telling someone our name and how we are feeling. Muy bien!
