

Our Lady of the Rosary –Year 1 Newsletter

I would like to thank everyone for their support at home with their child's reading and phonics development. The children have made excellent progress, and this would have not been possible without the support from home.

Look what we have been up to...

As part of their Design technology lesson the children made a moving vehicle. They used a range of materials to create wheels and axles. They then evaluated their finish vehicle.

We have been learning all about animals in science. We have sorted animals into different categories such as reptiles, amphibians, mammals, fish, and birds. We discussed why they belonged in that group.

'If I used wooden wheels my car would have moved better'

Mila Carr

I loved talking to Sunny about where he lives and what he eats'

Amelia barker

Humans are mammals because we have live babies'

Zack Shepard

The children received a visit from Sunny the Meerkat. They have enjoyed asking Sunny lots of questions about himself and writing letters back to his family.

In art the children have been learning about sculptures. They used clay to make their own sculptures and collected a range of natural materials at home to bring into school to design and make a sculpture.

We had a visit from the police and fire service. They learned about safety whilst having fun with all their equipment. Mrs Howe even got a little wet!

Please contact school if you have any questions. Mrs Howe can be contacted on dojo or by ringing the office on 0191 5862264
